Suggestions for Improvement:	Mary Jo should take time to reflect after each lesson to determine what worked and what didn't go according to plan. All lessons need to be adapted based on student need and interaction.
Overall Rating:	Proficient
Suggestions for Improvement:	Mary Jo asked for feedback when one of the groups had a member that refused to participate in one activity. As she gains experience she will realize that sometimes these things happen with students we don't expect it from and the appropriate ways to address the situations. All beginning teachers need to ask more experienced teachers for suggestions and I'm glad she took the initiative.
Overall Rating:	Proficient
Suggestions for Improvement:	She works well with my special needs students as well as others in the class and has a good sense for where students are coming from. She knows her weakest skills and asks for advice. She deals with difficult situations in a caring but firm manner.
Do you believe this practicum student has the knowledge, skills, and attitude required to become an effective student teacher?	Yes
General Comments:	My class has a high number of academic and behavioral needs which she dealt with in a professional manner. She goes above and beyond what I ask her to do. I believe Mary Jo will become an asset to the teaching profession.
